side, allowing Proportions'

If you have cropped an image in the proportions of a square, the height of the image will be the deciding factor and must not exceed 768 pixels.

The image size should not exceed 800 kb.

You may use the image quality as 10 or 9, or even smaller number when you save as a JPEG but the image should not exceed 800 kb.
为了把图像大小控制在 800kb 以内，当你储存 JPEG 时应把质量设定为 10, 9 或小。

Now, set the image quality option to 9 or 10 here instead of the “maximum” as done the last time.

Smaller images are acceptable. For oversize images, software will resize your images to stamp size automatically.
